Re: Rollingwood Oak Wilt Trenching for Street R.O.W. (Task 18) – Bid Award

Dear Mrs. McKee,

Bids were received and opened February 21, 2017 at 4:00 PM. Two (2) bids were received and the results are shown on the attached Bid Tabulation Form. The first bid was provided by Pitts, Inc. with a total project cost of \$162,495.00 and the second bid was received by Boretex, LLC with a total project cost of \$96,790.50.

LNV recommends that the City award the bid to Boretex, LLC. LNV reviewed a list of construction equipment, Statement of Experience, and spoke with references that provided favorable reviews. Boretex has demonstrated with their previous work experience the capability of performing the quality of work required for this project including the recent Rollingwood Retaining Wall project which provided favorable results. Therefore, LNV recommends that award of the bid contract to Boretex for the amount of \$61.65 per linear foot of trenching for the approximate total cost of \$96,790.50.

The bids received included an all-inclusive cost per linear foot that includes any and all costs necessary to perform the trenching as indicated in the advertised plans. The bids also include the total project cost which is based on an estimated 1,570 linear feet of trenching. Efforts will be required to monitor the progress and linear footage of trenching performed by the contractor to determine the total payment that the awarded contractor should be paid.

If you have any questions, please feel free to contact me at (512) 381-8333.

Sincerely,

Jay Campbell, PE CPESC
