The Commission discussed this report and requested information regarding the financial impact of the storm on the city.

4. Discussion and possible action to evaluate and draft a policy that requires new residential water meters installed at the request of the property owner be digital meters paid for by the property owner.

Phil Dixon joined the meeting during this item.

City Administrator Amber Lewis explained that this item came as a request of the City Council, discussed the city's relationship with AWR, that the city is in the process of moving to Incode utility billing software, and that the city could still use the Badger meters if the city no longer works with AWR. She also discussed the price quote for the electronic meters.

City Administrator Amber Lewis stated that staff could have a draft policy at the next meeting that would include feedback received from the Commission and Council Member Sara Hutson on the intent of this item.

The Commission discussed the plan for the city switching over from the current meters to electronic meters.
